

The World's Best Performing Back Protectors

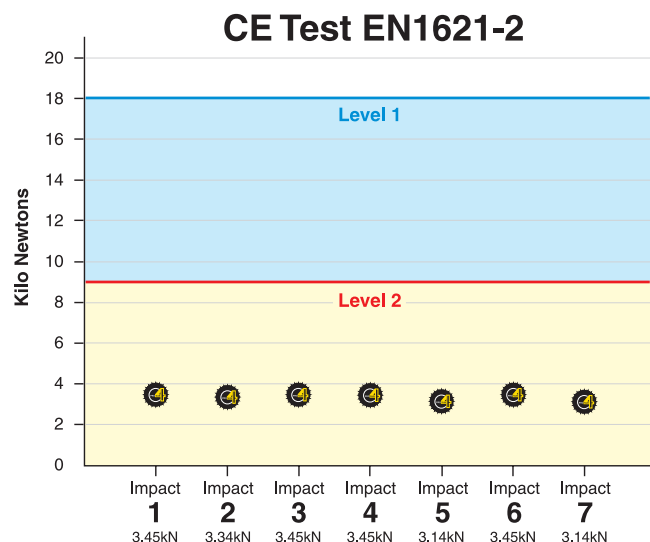

At Forcefield Performance® we take safety very seriously which is why EVERY piece of Forcefield Body Armour® is independently CE Tested and Approved.

The Forcefield Pro Sub 4 is **officially the world's best performing back protector** as verified by SATRA (Certified test house) with an **AVERAGE multiple impact rate of an incredible 3.38kN.**

- The all-important **CE Test EN1621-2** requires the back protector to be impacted at least 5 times with impacts distributed over the protector. **(The Pro Sub 4 is voluntarily impacted 7 times!)**
- The impact force is 50 Joules and the transmitted energy is measured in Kilo Newtons (kN).
- To attain a level 1 pass the average of the seven impacts should be below 18kN with no single impact being greater than 24kN.
- To attain a level 2 pass the average of the seven impacts should be below 9kN with no single impact being greater than 12kN.

Forcefield Pro Sub 4
comfortably exceeds
rigorous level 2 testing!
